

PROGRESSION OF STALKING

Plaster Leaf Plaques:

1. Place leaf on a board which has been coated with grease. Rub a little grease onto the leaf. Make a plastercine dam around the leaf and pour in plaster of paris.
2. When set remove the leaf.
3. This gives a mould for step 3. Grease the mould and make a dam with plastercine. Make a wire loop and hanging. Pour in the plaster and allow to set. Remove the plaque, clean it and colour as needed.
4. Label the leaf.

Carbon Leaf Impressions:

1. Place a leaf on a support, veins upwards. Place carbon paper over the leaf with carbon upwards. Place a sheet of white paper on the carbon.
2. Rub firmly with a spoon.
3. Cut the impression away from the smudges and mount on a card.
4. Include in a logbook and label it.
