

PRO-PLAN CHART NO. 10.

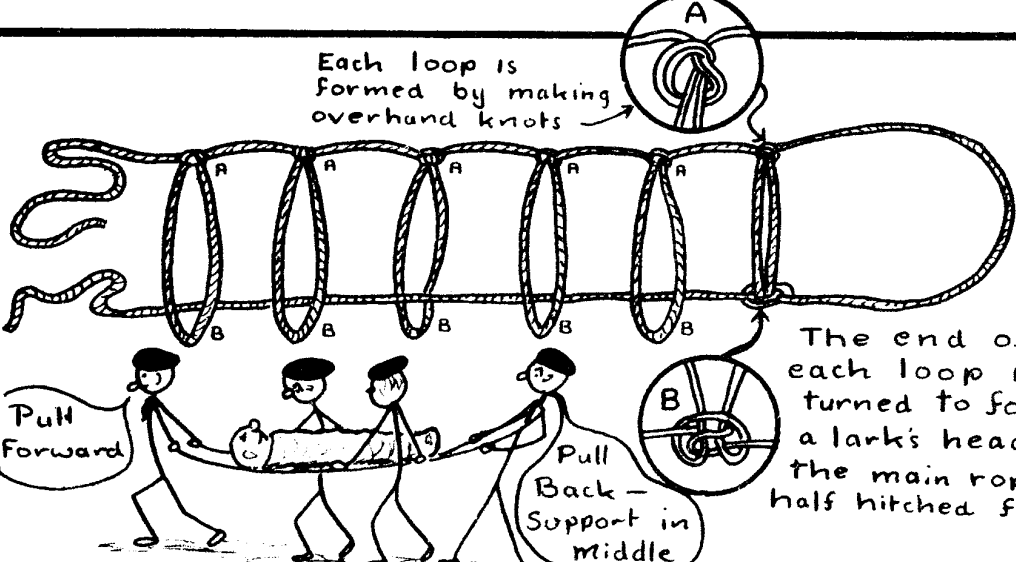

IMPROVISING STRETCHERS

1
Two SCOUT SHIRTS OR TWO COATS. THIS CAN BE IMPROVED BY BRACING AS IN THE FOLLOWING STRETCHER, TO STRENGTHEN USE SCOUT BELTS BENEATH THE SHIRTS

2
STAVES AND ROPES, USE SOME FORM OF PADDING TO PREVENT ROPE CUTTING INTO PATIENT.

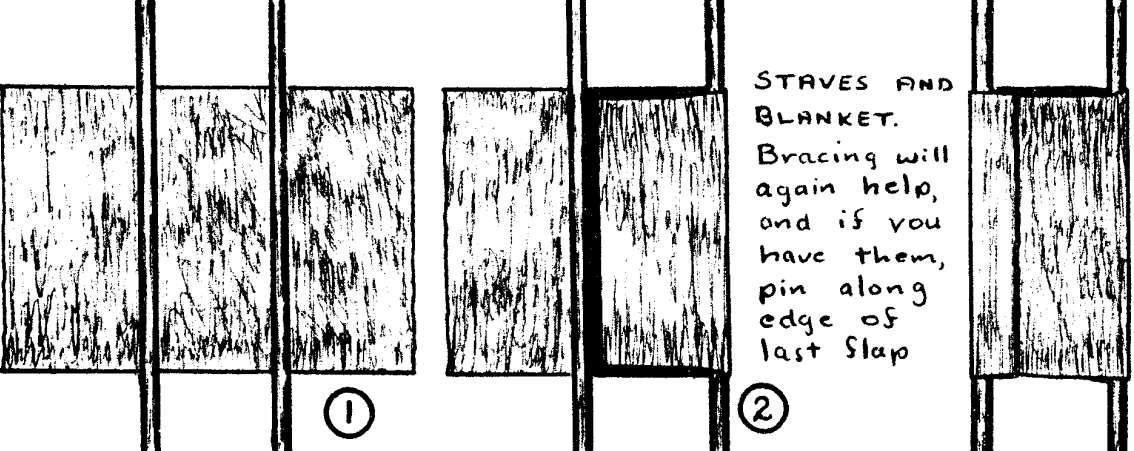

Each loop is formed by making overhand knots

3
LOOPED ROPE, A GOOD TYPE OF MOUNTAIN STRETCHER - USING CLIMBING ROPE

The end of each loop is turned to form a lark's head and the main rope is half hitched fig B

Pull Forward

Pull Back - Support in middle

4
STAVES AND BLANKET. Bracing will again help, and if you have them, pin along edge of last Slap
